

## TAKE BACK YOUR ENVIRONMENT

**Pests** are invading our homes and affecting our health and quality of life

**Bed bugs** have taken a foothold in our society and are creeping into beds in hotels, motels and homes

Steam kills **pests** and their **eggs** with high temperatures. By reducing the population you reduce the adverse effects of these **parasites**, and of **bacteria** and **germs**.

**Dust mites** are invisible triggers for **ALLERGIES & ASTHMA**.

**CONTROL YOUR ENVIRONMENT NATURALLY!**

## TR 6 CONTINUOUS STEAMER

*Eurogem's breakthrough technology utilises a reservoir to eliminate back pressure, allowing you to keep the boiler full for non stop steam.*

Join the thousands of happy and healthy people who have experienced the  **freshest**, most  **efficient** and  **environmentally** friendly development in cleaning technology. Make the change to steam and rid your world of harsh toxic chemicals.

**Make a difference with Eurogem**

*TR6 has a Steam Iron as an optional extra!*

## TR6

Made in Italy

# THE POWER OF STEAM

## TECHNICAL SPECIFICATIONS

- Power supply - 230V 50Hz
- Maximum power - 2500W
- Steam trigger
- Boiler material - stainless steel
- Boiler capacity - 2 litres
- Operating pressure - 4.2 bar or 60.5 PSI or 420 K Pa
- Dimensions - L 450 X H 290 W x 340
- Weight - 6 Kgs
- Start up time – 6-8 minutes
- Steam runs for approximately 40 minutes
- 2 year limited warranty on boiler (domestic)
- 1 year warranty on parts and labour (domestic)
- **Finance available** (Conditions apply)

### CLASSY AND ECONOMICAL

**TR5 STEAM CLEANER**

## TECHNICAL SPECIFICATIONS

- Power supply - 230V 50/60Hz
- Maximum power – 2350 W
- Steam on/off switch
- Boiler material - stainless steel
- Boiler capacity - 1.2 litres
- Operating pressure - 4.5 bars or 65 PSI
- Continuous Steam
- Stainless steel body
- Dimensions - L 450 x H 290 x W 350
- Weight - 7 kgs
- Start up time - 3-4 minutes
- 2 year limited warranty on boiler (domestic)
- 1 year warranty on parts and labour (domestic)
- **Finance available** (Conditions apply)

### USER FRIENDLY AND POWERFUL

**TR6 CONTINUOUS STEAM**

## POWER OF STEAM

Steam is the ultimate, **environmentally friendly** cleaner. Harnessing the forces of nature, steam uses heat to soften the fats, greases and oils that trap stains onto and into surfaces, then high pressure steam vapour to blast the stain away.

Steam is the proven best method of cleaning many surfaces but you need **a constant supply of high pressure steam**. The TR5 and the TR6 at 4.5 bars pressure are so **technologically advanced** in their production of constant steam that lesser models fade to insignificance.

**THE WORLDS BEST CLEANER  
FOR TILES AND GROUT**
