

THE PATENTED FILTRO VAP SYSTEM

Filtro vap is a revolutionary filtration system which forms a steam barrier and forces the vacuumed air to cross through a 140 degree vent of steam before entering the recovery tank. This steam and water filtration stops even the smallest dust particles such as pollen, mites, and micro dust, which are among the main causes of respiratory ailments.

The rain effect of the steam barrier creates a preliminary weight which forces down the small particles at the first entrance of the suction ducts. The air that goes through the steam filter follows along the duct with violent hairpin bend curves facilitating the air/steam mixing. Everything then goes inside a tank provided with a separator that generates (due to the strong depression) a further mixing of the air/steam with the water inside

QV7 - Technical Specs

- * BOILER CAPACITY – 0.7 LITRE
- * AUTO REFILL, REFILL TANK 1.5 LITRE
- * BOILER MATERIAL - STAINLESS STEEL
- * TOTAL MAXIMUM POWER - 2350W
- * POWER SUCTION MOTOR - MAX 1200W
- * POWER SUPPLY - 230V 50/60HZ
- * MAX STEAM PRESSURE - 4.5 BARS OR 65PSI (ADJUSTABLE)
- * WEIGHT - 11 KGS (EMPTY)
- * DIMENSIONS - L500 X H340 X W390
- * BOILER HEATING TIME - 4 MINUTES APP.
- * FILTRO VAP WATER FILTRATION

WARRANTY

- * 2 YEARS WARRANTY ON BOILER (DOMESTIC)
- * 1 YEAR WARRANTY ON PARTS AND LABOUR (DOMESTIC)

QV7

COMBINED STEAM W/ VACUUM

**ENVIRONMENTALLY FRIENDLY
CLEANING SOLUTIONS**

www.eurogem.com.au

APPLICATIONS

Tiles, grout, carpet, laminate, wood and parquetry

Benches, range hoods, ovens, stoves, splash backs and stainless steel

Windows, mirrors, curtains, fly screens and upholstery

Toilets, spas, shower screens, fittings and basins

Mattresses, pillows, drapes, and toys
Cars, boats, caravans, child seats etc

Maintenance

Cleaning with the QV7 eliminates the high cost and harmful side effects of acids and toxic chemicals helping to recreate nature's own healthy

STEAM EFFECTIVENESS

Steam is the ultimate, environmentally friendly the greases, oils, and fats etc, that bind dirt into and onto different surfaces. The pressure then blasts the dirt away. This is not an abrasive method of cleaning, making chores easier, faster to do and less taxing than the old scrubbing methods.

Steam is the proven, worlds best method for cleaning tiles and grout and, with the addition of vacuum, becomes a unique cleaning tool for the maintenance of carpets, killing bacteria, germs and pests as it clean

PROVEN CLEANING

Most surfaces are cleaned faster and easier utilising the power of steam but be warned, to be effective a steamer must supply a constant, high level of pressure.

The QV7at 4.5 bars of pressure and continuous refill gives you a constant supply of high pressure steam to simplify your chores

OPTIONAL EXTRAS

Optional Power Head and Steam Iron

Chemical free pest control is now at your finger tip

SOME UNWANTED VISITORS

Bed bugs are more and more of a problem in our society as they hitchhike into hostels, hotels and other accommodation providers before spreading into our homes.

STEAM KILLS MITES AND PESTS

The incredible QV7, STEAM WITH VACUUM SYSTEM, not only kills these pests and their eggs with the application of high temperature steam but also vacuums up and filters away the residue and faeces that affects us so much.

Dust mites are ever present in our modern world but you can improve the quality of your environment by controlling their population and the adverse effects of breathing in their waste, which is a major trigger for Asthma and Allergies.
