

SOME UNWANTED VISITORS

DUST MITES - BED BUGS

Dust mite & Bed Bugs are ever present in our modern world but you can improve the quality of your health by controlling their population and the adverse effects of breathing in their waste, which is a major trigger for Asthma and Allergies.

The incredible Liberty Professional steam with vacuum system not only kills these pests and their eggs with the application of high temperature steam but also vacuums up and filters away the residue, including the faeces that affects our health so much.

THE FACTS ABOUT FILTRATION

Most vacuums collect the larger, harmless bits of dirt but the minute particles of dust, that can affect our health and quality of life, flow straight through the porous bags and are launched into the atmosphere making them more likely to be inhaled.

THE ADVANCED VENTURI WATER FILTRATION SYSTEM

The Liberty Professional utilises a mixing chamber where all particles of dust are mixed with and saturated by water before being trapped in the disposable water slurry.

Each time you clean, you remove all the dirt and you don't leave bacteria and germs in a dirty vacuum bag to proliferate before being spread throughout the house the next time you vacuum

LIBERTY PROFESSIONAL

STEAM WITH VACUUM

Chemical free pest control is now at your finger tip.

TECHNICAL SPECIFICATIONS

- Steam pressure - 4.5 bar or 65 PSI
- Boiler capacity - 3.4 litres
- Boiler reserve tank - 1.4 litres
- Boiler heating time – approximately 4 - 5 minutes
- Max boiler temperature - 150°C
- Continuous refill, continuous steam
- Maximum power - 2200 watts, vacuum 1100 watts
- Low voltage (controls) - 5 volts
- Power supply-230/240 volts 50 Hz 10 amps
- Venturi water filtration system
- Weight - 14kgs
- Dimensions - L540 x H 380 x W330
- Adjustable pressure

Liberty Professional

STEAM EFFECTIVENESS

This modern innovation uses high temperature steam to soften grease, oil and fats that bind dirt into and onto surfaces before blasting away the stain with high pressure. Sanitising steam reduces your work time and eliminates the effort of old fashioned abrasive cleaning.

The proven, world's best method for cleaning tiles and grout, steam cleaners become a unique and powerful tool for the maintenance of carpets, mattresses and upholstery, with the addition of a highly efficient, water filtration vacuum

VERSATILITY

This futuristic cleaner is suitable for a huge range of applications but be warned to be effective, a steam cleaner must supply a constant, high level of pressure. The huge boiler capacity of the Liberty Professional and the "continuous steam" facility gives you a reliable, lasting supply of steam at a blasting pressure of 4.5 bar
